

Health and safety policy arrangements for Stockingford Maintained Nursery School

Introduction

Warwickshire County Council as the school's statutory employer has a written statement of general health and safety policy. The policy details the County Council's statement of intent for health, safety and welfare of all employees, and the specific delegated responsibilities for all levels of managers and staff. This includes headteachers and staff in community & voluntary controlled schools, community special schools and maintained nursery schools.

The school uses the [WCC Health and Safety Policy](#) as the first part of the school health and safety policy. These school health and safety policy arrangements supplement the WCC Health and Safety Policy and relate to local procedures and relevant documents in place that are used in the management of health and safety within the school. This includes school activities on and off the premises.

For many areas of health and safety the school refers and adheres to WCC health and safety policies, procedures, advice and guidance; produced by the WCC Corporate Health, Safety and Wellbeing Service. The school also follows and adheres to the requirements contained in the WCC Health and Safety Standards for Schools document.

All WCC policies and standards referred to in these arrangements are available in the schools health and safety document library at www.warwickshire.gov.uk/schoolhsdocs School specific procedures and documents can be located in the Health & Safety folders in the School Office.

These policy arrangements and other specific health and safety policies and procedures are communicated to relevant staff upon induction and when work activities change. Where appropriate, consultation with staff / trade union representatives and any other persons will also take place. The arrangements will be **kept up-to-date and regularly reviewed**, at least on an **annual** basis or sooner if work activities change.

For further information and advice on any aspect of health and safety in school, contact Katherine King, Headteacher or Sara Ward, School Business Manager.

Health and Safety School Statement of Intent

Within our school we will meet all of the requirements set out in the Warwickshire County Council Health and Safety Policy. We will demonstrate WCC's commitment to health, safety, welfare and wellbeing by recognising that effective health and safety management is equally as important as our other school objectives.

Through this statement of intent and the implementation of our school health and safety arrangements we will ensure that we are meeting the policy aims, objectives and requirements. We will actively strive for continual health and safety improvement by complying with the policy and by working in consultation with managers, employees and other members of the school community. We will achieve this by:

- Considering health and safety within our school planning activities.
- Establishing a proactive and positive health and safety culture.
- Encouraging ownership and responsibility at all levels.
- Ensuring that WCC policies and standards are complied with by having school, or department specific procedures, documents, safe systems of work and arrangements that ensures the implementation of health and safety locally.
- Identifying, assessing and eliminating, reducing or managing the risks that arise out of activities/processes and operations through the risk assessment process.

- Monitoring our school health and safety performance by reviewing arrangements and analysing accident trends to identify areas for improvement.
- Ensuring that health and safety is considered as part of our performance management and employee appraisal and supervision process.
- Ensuring that health and safety is included as a standing agenda item at staff meetings.
- Ensuring that all employees within the school are made aware of this statement of intent and our arrangements.
