

Stockingford Nursery School

St Paul's Road, Nuneaton, Warwickshire. CV10 8HW
Sharon Kindred B.Ed, MA, NPQH
Headteacher

18th December 2020

Dear Parents/Carers

Today is our last day of the Autumn Term, and we would again like to take the opportunity to remind you of our responsibilities in respect of track and tracing up to and including Thursday 24th December 2020.

If your child displays coronavirus symptoms (see below) today or on Saturday 19th December and Sunday 20th (before midnight) and then goes on to test positive for the virus before 24th December 2020 please could you contact the school by email: parents1041@welearn365.com

Or if your child is currently waiting for a test result, please also contact us via email if you receive a positive result. We will check emails up until and including the 24th December 2020.

If we receive confirmation of a positive test within this time frame then we will email close contacts who will then be required to follow the current guidelines and self-isolate for 10 days.

If your child displays symptoms **after** this 48 hour period (19th and 20th December) as indicated above and then goes on to test positive for the virus you **do not need to contact** the Nursery School as is not thought your child would have been contagious whilst attending Nursery.

Reminder-Term for our returning children starts again on Wednesday 6th January.

Thank you all for your support this term, wishing you a very Happy and peaceful Christmas.

Sharon Kindred

COVID 19 main symptoms

A high temperature – this means you feel hot to touch on your chest or back (you do not need to measure your temperature)

A new, continuous cough – this means coughing a lot for more than an hour, or 3 or more coughing episodes in 24 hours (if you usually have a cough, it may be worse than usual)

A loss or change to your sense of smell or taste – this means you've noticed you cannot smell or taste anything, or things smell or taste different to normal
